Werum Software & Systems: New Subsidiary established in France

New company based in Toulouse

Lueneburg, Germany / Toulouse, France, October 5, 2009 – On October 1st, German software provider Werum Software & Systems AG officially opened its new subsidiary Werum Software & Systems SAS in France. The new office is located in Toulouse. Werum is the international leading supplier of Manufacturing Execution Systems (MES) for the pharmaceutical and biopharmaceutical production of medical drugs. Its MES product PAS-X, which is successfully running in more than 450 projects, is installed at 16 of the world's 30 leading pharmaceutical and biotech companies.

"Our goal in setting up a company in France is to open up one of the biggest pharmaceutical markets in Europe," Werum Executive Board Member Hans-Peter Subel says. "Through Werum France, we hope to expand our local presence and get closer to the market and the customer. We will use Toulouse as our base for promoting our software on the French market, for managing and implementing software projects and for providing product-related services to our French customers", Subel continues.

At the beginning of this year, Werum opened two other new subsidiaries, one in Japan and one in Singapore. There are now nine Werum locations worldwide employing a total of 360 people.

About Werum Software & Systems

Werum is the international leading supplier of Manufacturing Execution Systems (MES) for the pharmaceutical and biopharmaceutical industries. Its successful and well-established MES product PAS-X is installed at 16 of the

world's top 30 pharmaceutical and biotech companies. The comprehensive range of functions built into PAS-X is the key to quality and compliance and lays the foundation for operational excellence initiatives in the manufacturing and packaging of pharmaceutical products. The company's MES-related services include consulting, project management, validation support, system integration, training, maintenance, hotline support, and life cycle management. The software provider supplies turnkey, integrated and ready-to-be-validated Manufacturing Execution Systems. A global network of local Werum offices and carefully selected regional solution partners guarantees reliable on-site support for clients. Founded in 1969, the IT company currently employs 360 people at its headquarters in Lueneburg, Germany, and at eight other locations in Germany, France, the United States, Japan, and Singapore.
